ORDER

1. Whereas, Kite flying has been a passionate sport in Delhi. In common Parlance two types of threads known as "Manjha" i.e. ordinary **MANJHA"** and special "MANJHA" are used for the purpose of kite flying. Earlier the special "MANJHA" was made of threads coated with local adhesive and fine dust of glass which would act like a razor to cute the "MANJHA" of other competitors.
2. Whereas, now days, a new type of "MANJHA" with metallic powder canting is available in the market. This type of "MANJHA" is not only very strong but also a good conductor of electricity. Due to a fine metal coating, whenever such "MANJHA" entangles/comes in contact with overhead electricity supply cables including high voltage lines, electricity current runs through the "MANJHA" thread, resulting in danger of electrocution of the kite flier or a passer-by and also causes disruption of power supply system.
3. And whereas, it has been found that the threads with metallic powder coating being used for kite flying are good conductors of electricity and are dangerous to electrical installation as well as to persons using them as it may cause a flash over the overhead transmission lines and electrocution of the individual.
4. And Whereas, it is necessary to take suitable measures to prevent danger to electrical installations, annoyance to the public, danger to human life and safety and the disturbance of the public tranquility.
5. Now, therefore, in exercise of the powers conferred upon me by the Commissioner of Police Delhi by Section 144 of the Criminal Procedure Code, 1973 read with Govt. of India, Ministry of Home Affairs, New Delhi's Notification No. 11036/1/2008-UTL, dated- 26.11.2008 **I, VIRENDER MOR, ACP, SUB- DIVISION PALAM, IGIA UNIT, DELHI** do hereby make this written order that no person shall store or sell, or use the special "**MANJHA" viz.
